

THE 2900KL-AM

ANTIMICROBIAL WALL-MOUNTED FOLD-UP WHEELCHAIR SCALE

The number-one-selling medical scale company in North America offers an antimicrobial wall-mounted fold-up wheelchair scale that supports up to 1000 pounds and provides the optimum in quality, reliability, and ease of use. The low profile scale extends off the wall 3.5" when folded up and is excellent for facilities that need to save space. The large easy-to-lift platform accommodates most wheelchairs and provides a comfortable weighing experience for patients. The dual ramps offer easy on, easy off access and the anti-slip caution tape delivers enhanced safety. Other safety features include antimicrobial protection, a raised edge that follows ADA guidelines, a recessed handle, and no pinch points, which provide both the clinician and patient confidence during the weighing process.

Designed to meet the needs of hospitals, clinics, acute, long-term care facilities, doctor's offices, and anywhere space is limited. The scale gives providers flexibility with a wall-mounted display that can be mounted on either side of the scale. The 2900KL-AM's high-contrast color screen provides a user-friendly interface that includes BMI, hold/release, reweigh, recall, zero, KG/LB, tare, pretare and more. The exclusive Everlock® function allows the measuring unit (LB or KG) to be permanently locked on the scale.

The scale provides easy integration and seamless communication with today's EMR applications. The 2900KL-AM includes a USB interface for connectivity with a computer, EMR software, or other electronic devices via various Health o meter® Professional Connectivity Solutions.

THERE'S STRENGTH IN OUR NUMBERS.

When you add up the numbers, it's not surprising that the Health o meter® Professional Scales is the industry-leading name in medical scales.
