

THE 245EHR-2101

DIGITAL HEIGHT ROD FOR THE 2101 SERIES OF SCALES

The Health o meter® Professional digital 245EHR-2101 is an optional state-of-the-art digital height rod for the 2101 series of scales. The market-leading height rod provides the most accurate height measurement in its class, with a graduation/resolution of 1mm/0.1" and a full measuring range of 11 ¾" – 79 ½" / 30cm – 202cm and a digital range of 3ft 11.2" – 6ft 7.5" / 120 cm – 202 cm.

Built-In Reset Feature

Proprietary technology eliminates mechanical sensors, reducing failures, increasing accuracy and reliability

The new accessory uses solid-state technology, which provides a facility confidence that a patient's height will be measured accurately, and workflow will not be interrupted. The built-in reset feature increases accuracy and reliability, and the folding headpiece limits the height rod's profile, providing safety to patients and caregivers. The optional digital height rod has quick and easy to assemble brackets.

TECHNICAL SPECIFICATIONS

Digital Height Range

3ft 11.2" – 6ft 7.5" / 120 cm - 202 cm
Resolution: 1 mm / 0.1"

Mechanical Height Range

11 ¾" – 79 ½" / 30cm – 202cm
